“ *The Stroje family and friends,
I was sadden to get the call about Inez. I enjoyed talking to her and helping her with some of her shopping requests for her projects at GM. I will always treasure my 1st place ribbon she gave me for my homemade bread & Butter pickles. (she always got her own little container of those after that!) I had to leave GM kind of abruptly but we continued to write and call. Because of health reasons I'm sad I never got to have lunch and see her new pad. She was a character and I'm glad I got the chance to meet and spend time with her. She will be missed. Such a sweet lady.*
