“ Please accept my deepest sympathy on the passing of Mona. She was a lovely lady. I knew her through Sealarks. One day I mentioned to Mona that I knew someone who had gone to the School for the Blind. She knew that person and had taught her when she first came to the school. Cindy is her name and she told me that Mona had a very profound influence on her life. Cindy went on to obtain a Masters in Social work and has traveled the world with her service dog among many other experiences. Cindy and Mona were able to have lunch together and Mona was able see the great person Cindy had become. Mona played a big part in that. I suspect there are many more stories like this from her students.
