We were next door neighbors to the Bangers on Maple Drive in Monongahela. I can remember Sandie as a toddler coming down to our yard with Debbie. I also babysat with them when their parents would go to football games. She and Debbie were such nice girls and close as sisters. This hurts not just her family but the kids next door! Our sympathies go out to her family

We met when you brought Freddy Fu to South Side, from Monifiore Hospital, you were so knowledgeable and through with your surgical nursing knowledge. The insecure surgeons feared you because they couldn't pull any wool over your eyes, no pushing you around . A sales rep couldn't hand you a line of bologna. You could circulate and scrub circles around most staff. You went on to become the OR Supervisor then the Director at Mercy. You could do every job you didn't just speak it, you knew it and if you didn't know it you learned it. You never stepped over anyone to make yourself look good. I respected you more than any boss I have ever had or will ever have but what happened is you soon won my heart and we bonded as friends. I once told you I would take a bullet for you but I don't think you knew how much I meant it. You learned how directionally impaired I was by the number of calls I made to you so that steady guiding voice Of Sandie always who knew where to guide me. I thought of you daily when you left Mercy so I called you...I will miss that call and your voice terribly my dear friend....now Nursing Director and Chief Coordinator in Heaven. Love you girl.
